Based in Pompano Beach, Florida, Accudock has been providing customers with floating dock solutions since the mid 1990's. We started with commercial floating platforms, and have integrated into the residential and club applications. Rowing docks, kayak docks, commercial platforms, work floats, and aluminum gangways are some of what we now offer. What separates us from the competition is our ability and willingness to customize products that fit the customer's exact needs. We can fabricate our dock sections in any size, shape, or height.
