December 2012

Decking Overlay Rowing New Product Release !

Pompano Beach, FL

New Product Announcement!

AccuDock™ is proud to announce our new Decking Overlay for our Quality Floating Dock Systems! Following extensive water and environmental condition testing, our new Deck Overlay System is the perfect addition to an already outstanding Floating Dock Solution!

AccuDock™ Decking Overlay offers the color of your choice and can be applied to any existing AccuDock™ Floating Dock application or new floating dock project.

Perfect solution for all property application guidelines in residential or government projects. Residential customers love the option to now further enhance the aesthetics of their waterfront property!

Call the office for more details and pricing!

Our promise to our Valued Customers:

"We believe in our products, staff and most importantly, Our Customers! AccuDock has been family owned & operated since 1993. Every component of our floating dock solutions are Made right here in the U.S.A ! AccuDock manufactures every float system in house which allows us to offer our customer the most competitive pricing. We proudly stand behind our product 100% and take a personal interest from start to finish in each floating dock purchase ! Visit our Website www.accudock.com and be a part of the AccuDock Family!..."Owner/President, John Harrison

For additional information or a sample copy, Contact: Christine Catalano /Marketing Dept via email christine@accudock.com

Based in Pompano Beach, Florida, Accudock has been providing customers with floating dock solutions since the mid 1990's. We started with commercial floating platforms, and have integrated into the residential and club applications. Rowing docks, kayak docks, commercial platforms, work floats, and aluminum gangways are some of what we now offer. What separates us from the competition is our ability and willingness to customize products that fit the customer's exact needs. We can fabricate our dock sections in any size, shape, or height.
